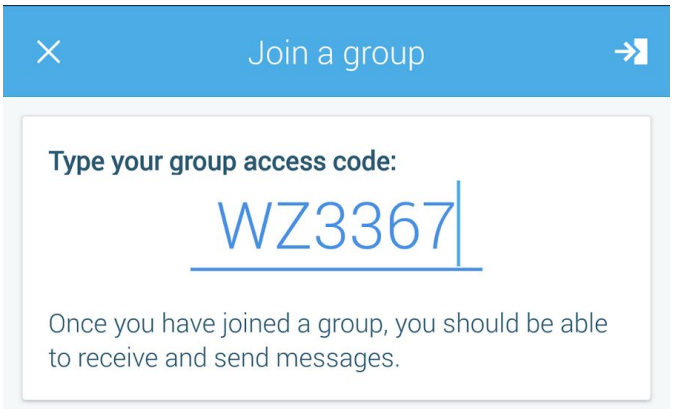
School Messenger App for your SmartPhone - Parents

As part of our commitment to enhancing parent communication, the Upper Grand Mobile App has a direct messenger capacity that enables you to receive messages on your phone from your school or teacher.

Clicking on the SchoolMessenger icon on the Upper Grand Mobile App for the first time will automatically redirect your phone to either the iTunes or Google Play Store. Install the app.

Once installed on your phone, please create an account. Click on the “Sign Up” link. A confirmation email will be automatically sent to the email address you provided. You will need to click the link in the email to activate your account.

Your school will provide you with a Group code that you will need to enter to join a group and begin receiving messages.
Using the menu located in the top left corner select “Groups” and type in the code provided by your school.



Using the menu, navigate to the “Messages” section. As part of this group you will now begin to receive messages sent by the school to this group.

We are excited to share this new service with our staff and parents. The Upper Grand Mobile App both simplifies and standardizes the process of sharing information digitally with our school community.
