Coding & Robotics: A Social & Behavioural Skills Club

Curious beginners and those with some prior experience will love this robotics-themed camp! Students will learn computation problem-solving strategies and basic coding concepts through graphical code and block code while building on their social & behaviour regulation skills with peers through a shared interest in coding and robotics.

Format: 5 x 90 minute remote sessions of group and self-paced coding activities

Ratio: 1 LEARNstyle coach per group with a maximum of 5 students per group
