

A look into an H-VAC Technician

This week [Graham Baker](#) from Erin District High School shares a little bit about his experience and how [Modern Niagara](#) is contributing to our community's future.

About Modern Niagara

“With the unique combination of capacity and agility, Modern Niagara can carry out the biggest, most complex jobs and change course when circumstances demand to keep projects on track. Our teams bring deep expertise, passion, and ingenuity to every project. Modern Niagara helps building owners, managers and general contractors achieve their objectives by meeting the mechanical, electrical, Integrated Building Technology, and building services needs of their properties across six main regions in Canada: Vancouver, Calgary, Edmonton, Toronto, Southwestern Ontario, and Ottawa.”

Learning in the Workplace

I've learnt a lot through this experience already, and everyone's been super helpful/understanding. My knowledge before this experience wasn't good, but now I'm already able to identify tools, and understand different programs. I also have learnt to ask for help/advice because sometimes figuring it out yourself won't work.

New Job Prospects

Going into this co-op I wasn't sure what I'd like my career to look like. I am now certain that this is what I'd like my career to be like, and have done my research of the requirements and what I need. I'd like to work for a Unionised H-VAC company, and have a good idea of what I'll need to do to get there.

Modern Niagara's Contribution

Modern Niagara mainly focuses on bigger industrial buildings, in bigger communities. Modern Niagara doesn't play a role in Erin's community, but plays a big role for people all

over Canada. “We support causes that matter to our employees with a donation to their charity of choice as part of annual performance reviews. We invest in education for youth through donations to post-secondary institutions in Canada and globally.”

Modern Niagara's Team

I work with my Uncle Gary, and have had the opportunity to work with a few other Modern Niagara employees. My Uncle Gary is filled with enthusiasm and knowledge, and is always there to help me with my struggles. The other's that I've met through this experience have been nothing but amazing and kind. You never feel alone working with Modern Niagara.

Conclusion

I am very grateful for the opportunity Modern Niagara has given me to be a H-VAC Technician. Modern Niagara is a great/safe company that cares about their employees. I would recommend Modern Niagara for anyone curious about working in the trades, or needing big work done for their building etc.
