Update

May 2020

🌸 Thank you to all Parents and students for working online. I know it has been challenging. For some more so than for others due to a variety of circumstances our families are in. This is a new thing for us all and it is requiring us to rise to some challenges we have not had to face before. I want to take a moment to say thank you to all of our families and staff for contributing, truly to the best of your ability. Every day, I am astonished at

how people everywhere rise up to do their very best. Thank you! I truly believe this will make us stronger.

🌸 I have received some pictures of our families' pets, but not many :- (Keep them coming! We need lots for the slideshow!

🌸 As you know, all of the pizza and sub refunds have been mailed out or refunded through Schoolcash Online, if that is how you paid. If you got missed by any chance, please contact Mrs. [Mrs. Klooster](#).

🌸 I know many of our grade 8 students and parents are wondering about the grade 8 grad. We had been awaiting the Ministry announcement about that as well as about June school status. Now that we know we are not returning back to school in June, the Ministry has advised that graduation celebrations are not to be cancelled, but postponed until September. In the meantime, our teachers are meeting as we speak to arrange a special experience for our grade 8 students. The teachers will be reaching out to students to form a committee as we would like to include your wishes in the celebrations. Please be sure to check your teachers' posting in the Classroom.

🌸 Some folks are wondering about returning borrowed tech equipment. We will be letting you know closer to the end of June what the process for that will be. Same goes for Report Card distribution. Information is to come soon.

🌸 Fetching student belongings. I know everyone is wondering about that. We tried to ensure that we designed a process that kept everyone safe. You can read about the details [here](#).

Enjoy the warmer weather, everyone!
