

Information Notice

Construction on St. Andrew Street East, Tom Street and Lamond Street

Thursday, August 30, 2018

Due to ongoing construction, portions of St Andrew Street East, Tom Street, and Lamond Street will be closed to through traffic until the end of December 2018 and local access may be interrupted at various times.

Based on information received from the Township of Centre Wellington, Triton Engineering and Wellington Dufferin Student Transportation Services, we are able to advise of the following:

- Elementary students impacted by the construction will be provided with temporary bussing until pedestrian access is available through the construction zone. Impacted families have been contacted by Wellington Dufferin Student Transportation Services.
- Secondary students must use the designated crossing at the intersection of St. George Street East and Tom Street. For John Black students living on Barker Street access to the school will be maintained via a pedestrian crossing on St. Andrew Street East.

Pedestrian traffic will be maintained along St. George Street East at Tom Street during school travel times. However, conditions may be subject to change daily and pedestrians will be required to obey signage and construction staff supervising the crossing when passing through the construction area.

No pedestrians should attempt to cross through the construction zone other than at the designated crossings unless directed by an on-site supervisor.

Updated information will be circulated accordingly if circumstances change.

Please refer to the map on the next page.
