Why should someone donate to me?

Because cancer research saves lives, as our School Poster Ambassador, Brie tells us. Your fundraising effort will help support research on many different types of cancers, such as...

Lung cancer
Breast cancer
Ovarian cancer
Colorectal cancer
Pediatric cancer
Prostate cancer
Brain cancer
Blood cancers

Brie, age 11, is a Terry's Team Member who is proudly representing all cancer survivors in 2021! Here's a Q and A with Brie.

What type of cancer did you have?

I had Ewing's Sarcoma, which is a type of bone cancer. I had it in my right upper Humerus, which is your funny bone!

Can you tell us about your cancer treatments?

I was hooked up to a hydration pump of water during rounds of chemo, so I had to go to the bathroom a lot. Sometimes I couldn't eat anything and sometimes I had weird cravings, like - "Hey Mom and Dad, can I have Quaker Maple Squares?"

What are your favorite pastimes, foods or hobbies?

I like to play the violin and eat marshmallows. I also like to draw and paint. In the winter, I snowboard and skate.

How does Terry Fox inspire you?

I admire his selflessness. He started his Run not for himself, but for everyone like him.

What would you say to everyone who is fundraising for cancer research?

My family and I have learned to appreciate and be grateful for everything. I appreciate your efforts to find a cure. **Thank you!**
