

## Wellington-Dufferin-Guelph Public Health Clinics for Gr. 7/8 School Immunizations

Hepatitis B, Human Papillomavirus (HPV) and Meningococcal immunizations are provided at no cost to Grade 7 students annually through the school-based immunization program. Due to COVID-19, this program was suspended during the 2020-21 school year. The program has resumed for the 2021-2022 school year and WDG Public Health is now offering immunization clinics throughout Wellington-Dufferin-Guelph regions for students to receive their immunization.

### How can students receive their immunization?

WDG Public Health will be offering several immunization clinics for students to receive their immunization. Please see the attached schedule with a list of the clinic dates and locations. Appointments for these clinics can be booked online ([Click here for the appointment booking system website](#)). Immunizations are also available through your primary care provider.

### I still have questions about my child's immunizations. Where can I get more information?

- Visit our website: [wdgpublichealth.ca](http://wdgpublichealth.ca)
- Call to speak to a Public Health Nurse: 1-800-265-7293 ext. 7006. **Calls may not be returned for 5-10 business days.**

### How to report your child's immunization records to Public Health

Parents/guardians are responsible for directly reporting immunization records to Public Health. Schools will not be collecting immunization data forms. You can report your child's immunization record to Public Health through one of the following ways:

**Online:** [ImmunizeWDG.ca](http://ImmunizeWDG.ca)

**Email:** [vaccine.records@wdgpublichealth.ca](mailto:vaccine.records@wdgpublichealth.ca)

**Fax:** 519-836-2986

**Call:** 1-800-265-7293 ext 7006

Parents can use the new [Immunization Connect Ontario \(ICON\) tool](#) to report vaccines, view vaccine records or print a copy of their child's online record. This online record will show parents which vaccines are overdue or have not yet been reported to Public Health.
