

September 17, 2021

Dear Families,

We are writing to share information received from Wellington-Dufferin-Guelph Public Health (WDGPH) about cases of COVID-19 in our community.

WDGPH has confirmed a positive COVID-19 case at John F. Ross CVI. WDG Public Health has determined that this individual was not at school during their infectious period and therefore, classmates and staff were not at risk of exposure through the individual. WDG Public Health has noted that this case does not create any risk to other students or the public beyond the general community risk.

We will continue to follow the protocols provided through WDG Public Health to support a safe and healthy learning environment. We would also ask that families continue to monitor your personal health and complete the self screening tool each day before leaving for school. COVID-19 School and Child Care Screening Tool [COVID-19 school screening](#)

If you have any questions, please contact Public Health at 519-822-2715, ext. 7006 during regular business hours.

Sincerely,

C. Warren
Principal
