*To access and view school points for individual students have your child/children log on to ugcloud and find the spreadsheet document that has their "last name, first name school points". [(e.g.) Leslie, Jillian school points would be the document for Mlle. Leslie.] Points will be updated as services, sports/clubs, and academics occur during the year. If your child/children believes/believe that the points are inaccurate, they need to speak with the teacher in charge of the event directly. This should be done no later than June 19th. Should there be any discrepancy from last year please have your child/children speak with Mme. Newman or M. Cutz before March 13th. Please encourage your child to initially speak with the teacher on their own behalf as we are encouraging students to take initiative and be responsible for themselves.
