

Ken Danby Suggested School Supply List 2020-21

Dear Parents and Guardians,

As you are working to get your child(ren) ready to return to school, you may be thinking of what students should bring to school to help with their safe return this fall. This year with the Covid-19 protocols, there will be no sharing of school supplies. We will have basic items for students to complete their work, but as you are working to get your child(ren) ready to return to school you may be considering how to help them with the new protocols. Below is a list of items that you may want to consider getting for your child(ren) so they have their own material.

All students: Backpacks will be kept at their desk or table on the back of their chair, so they should only have essential items. (No lockers for intermediate students, coat hooks or cubbies for kindergarten students.) Toys and games need to be kept at home. Please open new packages ahead of time if it's too hard for your child to open, so there is less physical contact. If students bring their own small container of hand sanitizer it must be *unscented*.

Lunch: Students need to be able to open their containers independently, their prepackaged food independently, as this will help to limit multiple contact points with your child's personal items.
