

CALLING ALL ROBOTICS AND CODING ENTHUSIASTS!

Social Coding & Robotics Virtual Club

This program is offered **FREE** for students in grades 5-8.

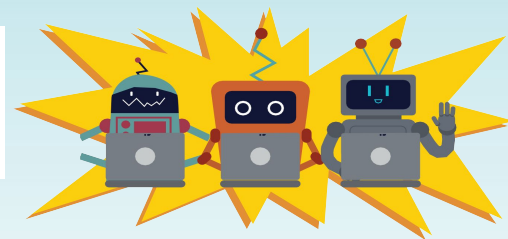

Curious beginners will love our **Generation 1** robotics-themed club! Students will learn computation problem-solving strategies and basic coding concepts through graphical code and block code, all while building their social and behaviour regulation skills with peers through a shared interest in coding and robotics.

A **Generation 2** program will be offered depending on your child's age and/or previous coding experience.

Format: 5 x 90 minute remote sessions of group and self-paced coding activities

Ratio: 1 LEARNstyle coach per group with a maximum of 5 students per group

Offering **Winter** and **Spring** Sessions
Application Deadline **January 19, 2024**
