### Earth Day 2019 Theme: Protect our Species

All living things have an intrinsic value, and each plays a unique role in the complex web of life. We must work together to protect endangered and threatened species. Go to <https://earthday.org> for some quick facts on the current wave of extinction and additional information about this problem.

### Ideas for your family to celebrate Earth Day:

- **Review last year's Earth Day Theme on ending plastic pollution,** as this important work continues. Make a pledge to always carry a reusable shopping bag, use alternates to Ziploc bags, buy in bulk, refuse to buy-over packaged products and make litter-less lunches. Download your Plastic Pollution Primer to learn more about this problem help **End Plastic Pollution!** <https://www.earthday.org/yourjourney2018/>
- **Spend a day outside.** In the garden with your family, plant vegetables, trees or native flowers and attract native animals and pollinators. Or join a local community event to help clean your neighbourhood or restore local plant life.
- **Make commitments to cut down on your energy usage as well as waste.** Turn lights off, power down electrical devices, turn down your thermostat and only do full loads of laundry and dishes.
- **Learn more about the environment and the effects of global warming.** Encourage awareness and promote the **Reduce** (buy less), **Reuse** (repurpose it) and **Recycle** (sort it right!) way of life.

Remember that every day is Earth Day! Don't restrict yourself to just one day a year. Make environmental actions and caring about the planet a habit - on Earth Day and every day.
