She taught them tips about shots, angles and using the equipment they have to create something great. The students have been working on getting their footage together and will send their work to Vanessa. Vanessa will then work on putting the footage collected together into a video. 		<p>December 16 and 17: I am available after 4:30 pm to staff a pick up table until 6 pm. We would need a volunteer for both those days from 3:00 - 4:30 pm to staff the table for pick up.”</p> <p>Council discussed what the money raised would be used for. Ideas were plexi-glass and/or frames for student artwork, Scientist in the School workshops, replenishing recess materials (balls, sidewalk chalk etc.).</p> <p>Mair advised that the plan for where the artwork will be hung has changed so the plexi-glass and frames are not needed at this time.</p> <p>Mair suggested that students are now allowed to interact more at recess so it doesn't have to be “One Child, One Toy” but liked the idea of replenishing outdoor learning and play materials.</p>
