SPECIALIST HIGH SKILLS MAJOR (SHSM) PROGRAMS

The SHSM program allows students to focus their learning on a skill-set and area of knowledge in a particular sector specific industry while working toward their Ontario Secondary School Diploma. SHSM students will be provided the opportunity to earn certifications and training, at no cost—such as First Aid, CPR, WHMIS, Working at Heights, Smart Serve, Leadership skills, Customer Service Skills, etc. These opportunities can be added to resumes, to help students be better prepared for the post-secondary destination of their choice. Requirements to receive this special designation are specific to each sector but include completing compulsory credits -including a 2 credit Co-op, certifications, reach-ahead experiences and sector partnered experiences. Students successful in the program will receive a SHSM designation on their diploma.

The sectors offered at ODSS in the SHSM program are;

- **Arts & Culture**
- **Business**
- **Construction**
- **Environment**
- **Health & Wellness**
- **Hospitality & Tourism**
- **Transportation**
- **Manufacturing**

ONLINE LEARNING GRADUATION REQUIREMENT

Beginning with the cohort of students who entered Grade 9 in the 2020-21 school year, all students must earn a minimum of two *online learning credits* as part of the requirements for an Ontario Secondary School Diploma unless they have been opted out. The ministry recognizes the extraordinary circumstances of the COVID-19 pandemic. As a result, this Policy/Program Memorandum recognizes up to one secondary school credit completed by Grade 9 students in the 2020-21 school year during the province-wide school closures (from April 2021 to June 2021) may be counted towards the graduation requirement.

Ontario teacher-led online learning will enable students to:

- access a wider variety of courses no matter where they live or go to school, allowing them to shape their education based on their individual needs and goals
- learn in engaging new ways, such as through hands-on, interactive features, simulations and collaboration with peers across the province
- increase their digital fluency and gain transferable skills to support lifelong learning and employment opportunities

Should parents/guardians, or the student if they are 18 years of age or older or 16 or 17 years of age and have withdrawn from parental control wish to opt-out of online learning, they may contact their school to obtain an Opt-Out form.
