

November 18, 2022

Dear Parents/Guardians:

There have been no new developments with regards to drilling since our last update. We look forward to a pre-construction meeting with our well contractors next week to finalize timelines.

We have received questions around enrolment at Primrose ES. Enrolment levels have been increasing, in particular the past two years. The degree of the increase was unexpected as there have been no significant subdivision developments in the area that would normally have triggered the size of the increase over the past two years. Board staff will be presenting a report on this item to the Board of Trustees in the new calendar year. As the new term of Trustees has just started, the exact date is to be determined.

The newly formed 'Water Committee' met this week. Their role is to gather community questions to share with board staff. If you have any questions specific to the water situation, please forward to [primroseschoolcouncil@gmail.com](mailto:primroseschoolcouncil@gmail.com). Please include 'Water Committee' in the subject line.

Wishing you a wonderful weekend!

Sincerely,

Belal Taha  
Superintendent of Education
