

Dear Brisbane, Ross R MacKay and Erin PS Families

September 25th, 2019

We are pleased to announce our next offering of the “Math4Fun” program at Erin Public School.

This program will run on Tuesday evenings from October 1st to 22nd, from 6pm to 7:30pm (4 nights).

The coaches will be Marina Harrison (principal), Michelle Lebon (grade 3 teacher) and Paul Nethery (grade 7/8 teacher).

This program offers parents insight into the primary and junior math program, helpful tips and strategies you can use to support your child’s math at home, as well as ways to seize “learning moments” despite busy schedules.

This unique program invites you to bring your Grade 2 to Grade 5 child with you. The children will have their own program including activities, crafts and snacks. They will also spend part of the evening with you practicing the skills and strategies you have learned about.

You will enjoy this special time with your child, connecting with other parents and discovering ways to help your child become more confident with building their math concepts. Please be advised that due to the nature of this program, there will be no supervision provided for siblings.

Please register by Thursday September 26, as space is limited. You can register online at this site:

<https://goo.gl/BqJSii> or by returning this page to your child’s teacher.

Thank you!

*“If people do not believe that mathematics is simple, it is only because they do not realize how complicated life is.”
~John Louis von Neumann*

We would like to participate in the Math4Fun program.

Child’s Name: _____ Child’s Grade: _____

Parent’s Name: _____ (Both parents are welcome to join)

Parent’s email: _____ Phone Number: _____
