Dear Families,

The staff at Salem PS would like to wish all of our families well by doing a drive-by throughout some areas of our school community. After checking with the Superintendent and consulting the Provincial State of Emergency orders, we have received permission providing our staff and community adhere to the Provincial Social Distancing Orders. Here are the details:

- Wednesday, May 6th
- The staff will start at Salem PS at 11:00 am to follow the route on the map provided. Mrs Shantz will lead the way!
- Please note that the staff will be practicing social distancing protocols in doing this motivational drive.
- Please note that the staff will be in their own vehicles and will not be leaving their vehicles at any point in time. Staff cannot share a vehicle unless they live in the same home.
- Staff may not get out of their cars at the school - they are to line up in a circle beginning at the parking lot entrance. Seatbelts must be worn at all times. Staff must follow all traffic rules, especially regarding stop signs and stop lights.

- A route throughout our school community is attached. Please note that the staff will go to SPS to begin the route. Ms. Skerritt will be the last car in the line, so you will know when the drive is over.
- We're asking families to be outside on your front porch in front of your house so the staff can wave at you. We will not be able to tour every street. Please keep sidewalks clear for others that may wish to see the cars drive by.
- If your home isn't on the route, please make your way to a place that is on the route while practicing social distancing. Maintain a hockey stick's length away from each other.
- We want to see as many smiling faces as we can! We're hoping that this will give our students and staff something to look forward to on Wednesday, May 6th. It's a small way of saying how much we miss you and thank you for the great job you are doing with Distance Learning.

The Staff of Salem Public School
