

Signing into Google Classroom on a Chromebook

Once you have logged into the Chromebook, you should immediately be taken to the UGCloud Landing Page.

If this does not happen, go to <http://ugcloud.ca/>

OR click on the ugcloud bookmark on the bookmark bar at the top left of your screen.

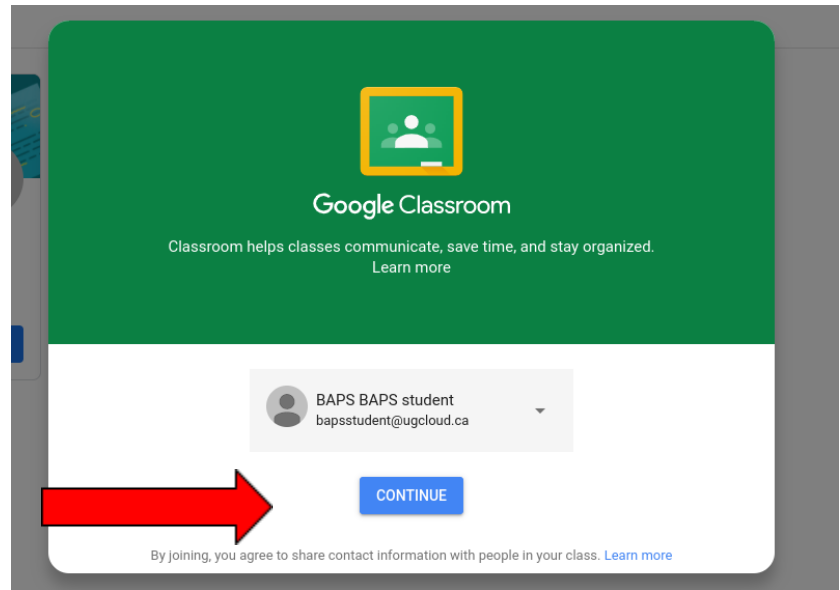

Click on UGCloud in the drop down.

Once you arrive at the UGcloud Landing page, you will be able to access Google Classroom, as well as many other board provided tools and services, including UG2GO.

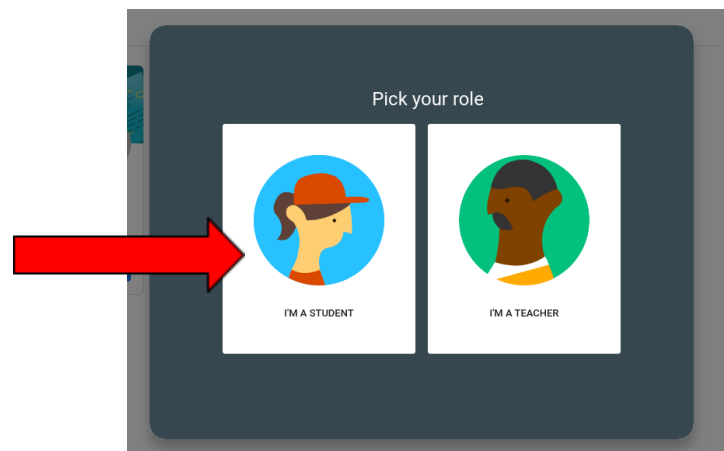

Click on the Google classroom link (blue text).

If your child has never signed into Classroom, they will be prompted with this screen. Click continue ...

Then they will be asked if they are a student or a teacher.

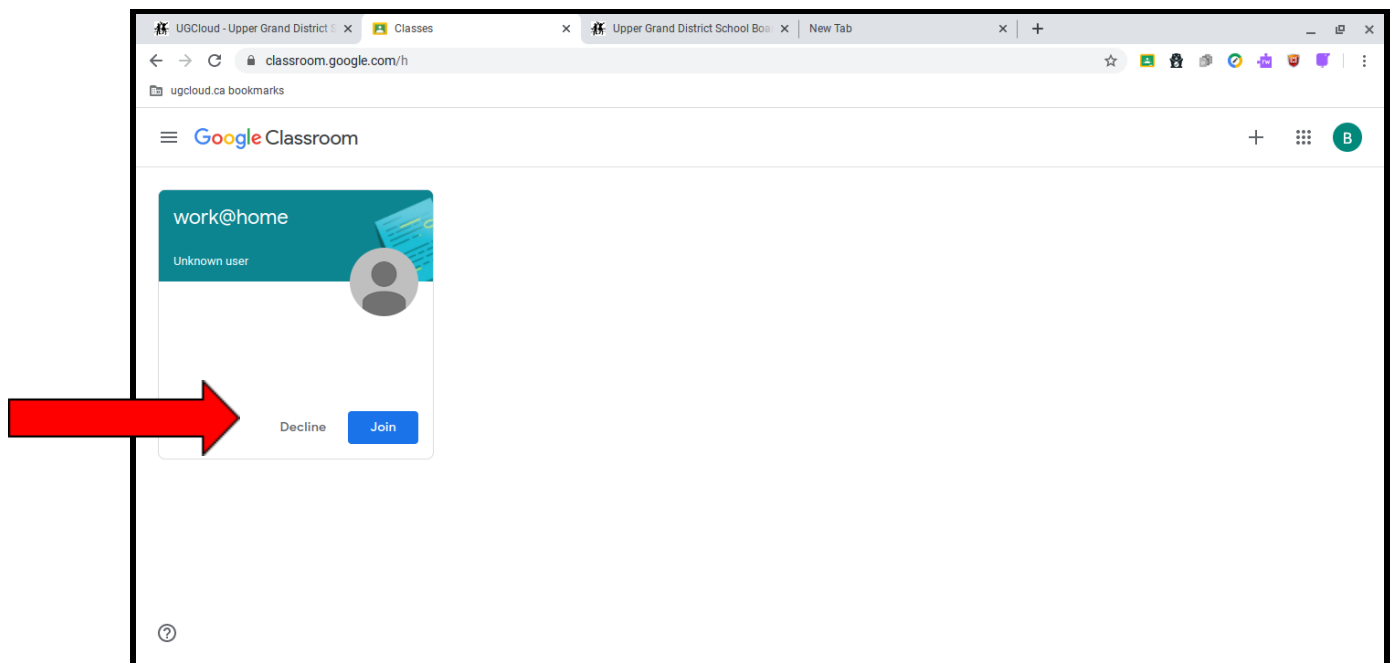

Choose student:

Next, they will be brought to their Google Classroom Dashboard. They will need to find their teachers' Classroom and **click on "Join"**.

Note: They may have more than one Classroom on their Dashboard that has been shared with them by teachers.

Check with your child's Classroom teacher if you are unsure which one to go.

Now that your child is in the Classroom, they can access messages, resources and Classwork from their teacher.

Check out these resources created for parents to learn more about how Google Classroom works:
