1. The behavior is intended by the student to have the effect of, or the student ought to know that the behavior would be likely to have the effect of,
 - causing harm, fear or distress to another individual, including physical, psychological, social or academic harm, harm to the individual’s reputation or harm to the individual’s property, or
 - creating a negative environment at a school for another individual, and
2. The behavior occurs in a context where there is a real or perceived power imbalance between the student and the individual based on factors such as size, strength, age, intelligence, peer group power, economic status, social status, religion, ethnic origin, sexual orientation, family circumstances, gender, gender identity, gender expression, race, disability or special education needs.

- VERBAL AGGRESSION: e.g., insults, threats, taunting someone in a hurtful way, name calling, making sexist, racist or homophobic comments

Assess Safety / Make a Plan

Reporting Incidents of Bullying

Students, parents, school staff and volunteers may use the following methods to report incidents of bullying as appropriate:

Student to Student:

- Safe Schools Incident Reporting (on-line)
- On-line Bullying Reporting Tool
- Tell an adult in the building (phone, in person, email etc.)
- Parent / Teacher interviews
- Make an appointment to meet with school staff

When responding to a bullying incident, our school staff uses a progressive discipline approach. Use of Progressive Discipline supports a safe, inclusive and equitable learning and teaching environment in which every student can reach his or her full potential. Strategies may range from early intervention to more intensive intervention in cases of persistent bullying, with possible referral to board support personnel, community or social service agencies.

These may include but are not limited to:

- Well-Being strategies and programs;
- providing students with the opportunity to learn life skills such as conflict resolution, anger management and communication skills;
- collaborative problem solving;
- utilizing models based on the concepts of peer mediation;
- documenting incidents requiring disciplinary measures;
- use of progressive discipline;
- consideration of mitigating factors;
- ensuring that contact is made with the parent(s)/guardian(s) of students, under the age of 18, early in the disciplinary process and involving them in a plan to improve the behaviour;
- CYC support
- referral to outside agencies (e.g., CMHA, DCAFS)

- restorative justice practices (e.g., written or verbal apology, community service)

Consequences are at the discretion of the Principal or Vice-Principal. In the case of severe misbehavior, our format of progressive discipline consequences may be superseded. As incidents arise, it is recognized that each situation is unique. Mitigating circumstances will be considered for student age, frequency of incidents, nature and severity of incidents, student exceptionalities, extenuating circumstances, impact on the school climate.
