Principal: Mrs. Trisha Drohan

Office Coordinator: Mrs. Karen Johnson

Thursday, December 30th, 2021

Dear parents/guardians and staff,

Wellington-Dufferin-Guelph Public Health has notified us that an individual at Victoria Terrace P.S. has tested positive for COVID-19 and they were at school during their infectious period. Public Health has determined that 10 days have since passed, which means there is no further requirement to isolate. WDG Public Health has determined that there are no high-risk contacts but encourages families to continue monitoring for symptoms.

Please note that the board website only reflects active COVID-19 cases and given that the isolation period has passed, this case is no longer considered an active case. We will continue to follow protocols provided by WDG Public Health to support a safe and healthy learning environment. We would also ask that families continue to monitor your personal health and complete the self-screening tool each day before leaving for work or school. [COVID-19 School and Child Care Screening Tool](#)

If you have questions, please visit the “For Schools” section of the WDGPH website: [WDGPH Website](#).

Sincerely,

Trisha Drohan
Principal
