More information at: [www.ideadufferin.com](http://www.ideadufferin.com)

For course selection please choose: FTEARTS

Elearning: our school board is part of an elearning consortium where Westside students may be able to access courses that are not offered at our school. A list of courses available will be posted on the school's website as soon as it's available. These courses are semestered, and also have class size caps. Elearning requires students who are independent, excellent at time management, and who have strong problem solving skills. There are limited number of Grade 11 courses available, however students who are interested in seeking out this possibility should see Mrs. Kirkland.
