Course Outline

Course: TEJ3M	Teacher: Ms. Jackie Griffith	Program Leader: Mr. Jim Wardle
Computer Technology	Voice Mail: 539	Email: jgriffith@ugcloud.ca

Course Description:

This course enables students to develop knowledge and skills related to computer hardware, networks, operating systems, and other software. Students will use utility and application software, and learn proper procedures for installing, maintaining, and troubleshooting computer systems and networks. Students will develop an awareness of environmental and societal issues related to the use of computers and will learn about apprenticeships and other employment opportunities in the field of computer technology that they may choose to pursue after graduation.

Big Ideas (overall learning outcomes for the course):

- gain an understanding of the fundamental concepts in technology
- achieve a higher level of technological competence
- develop a creative and flexible approach to problem solving
- develop the skills, including critical thinking skills, and the knowledge of strategies required to do research, conduct inquiries, and communicate findings accurately, ethically, and effectively develop lifelong learning habits
- make connections that will help take advantage of potential postsecondary educational and work opportunities

Overall Curriculum Expectations: (by the end of this course, students will):

Computer Technology Fundamentals - describe how computer components, BIOSes and Operating Systems function and how they interact with each other and with the computer hardware.

Computer Technology Skills - build, configure and maintain a computer system and connect peripheral devices; install, configure, test, and troubleshoot networks.

Technology, The Environment, and Society - describe environmental and societal issues related to the widespread use of computers and associated technologies.

Professional Practice and Career Opportunities - describe ethical and security issues related to the use of computers; describe various careers related to computer technology.

Assessment and Evaluation:

Formative assessments are used to improve student learning by providing varied opportunities to demonstrate an understanding of course expectations in preparation for summative evaluations. Summative evaluations test groups of key expectations. Failure to complete a summative evaluation may result in the expectations of the course not being met and the credit not being granted.

Late Policy:

Students are expected to complete all assigned work and submit it by the teacher's established due date. Every attempt will be made to encourage students to complete all assigned work on time so their grade represents their actual achievement. For late and missed summative assessments, please see the Westside's Student Contract for Missing Evidence of Learning.

More details about Westside's Assessment and Evaluation Policy is available at:

<http://www.ugdsb.ca/westside/wp-content/uploads/sites/74/2016/12/Westside-Assessment.pdf>

Learning Skills:

Your learning skills will be assessed in the following manner:

1	Responsibility
2	Organization
3	Independent Work
4	Collaboration
5	Initiative
6	Self-Regulation

The learning skills will be evaluated using a 4-point scale:

E – Excellent
G – Good
S – Satisfactory
N – Needs Improvement

70% Summative Assessment:

Formative assessments are used to improve student learning by providing varied opportunities to demonstrate an understanding of course expectations in preparation for summative evaluations. Summative evaluations test groups of key expectations. Failure to complete a summative evaluation may result in the expectations of the course not being met and the credit not being granted.

Category	Concentration
Knowledge and Understanding	25%

	Term Work (70%)
Unit of Study	Summative Evaluations
Networking	Simple networking schematics and interfacing
Computer Hardware	Assemble and Upgrade a Personal Computer
Operating Systems	Install and Configure a single-user Operating System
Programming	Basic Programming for Arduino and use of Khan Academy
Reverse Engineering	Unethical Computer Hacking and Safe Computer Use
Societal	Research Assignment regarding the Impact of Technology
Career Explorations	Explore appropriate Careers in Information Technology
	Final Summative (30%)
All units 10%	Culminating Activity
All units 20%	Final Exam (on Exam Day)
